

Under the sea

(Miss Caroline's music class)

Under the sea, under the sea
way down under the sea
under the sea under the sea
way down under the sea.

Whales and dolphins, turtles and crabs
way down under the sea
beautiful colours swimming around
way down under the sea

We're all creatures swimming happily
way down under the sea
this is where we're living 'cause we're creatures of the sea
way down under the sea

Under the sea, under the sea
way down under the sea
under the sea under the sea
way down under the sea

Red lobster crawl on the cool smooth sand
way down under the sea
Jellyfish swaying float up and down
way down under the sea

Under the sea, under the sea
way down under the sea
under the sea under the sea
way down under the sea

way down under the sea ...
